W though it seems to me that it cannot be rely segiven up, modified or dissolved by the
Sarded in any other light than that of a dangerous political heresy, if it can be made to
gerous political heresy, if it can be made to appear reasonable enough for the thinking men to accept it. The object of this article by force of arms. is to endeavor to demolish the stand which the Free Democrat has taken on this subject, and to show that secession is no part of State sovereignty, and that "State Rights'. cannot possibly be construed into secession. Such an anomalous and startling doctrine was certainly never before broached, and would hardly merit notice now, were it not, as the Democrat states in its first article, endorsed, in a measure, by the leading Republican journal of the country-the New York Tribune. The Republican party ought not to be charged with such a shallow heresy, and the subject should therefore be thoroughly ventilated by Republicans and Republican journals throughout the land. The right of revolution when the government becomes subversive of the just rights of the people, cannot be denied; but it never occurred to me before, that anyone would seriously contest, that a State had the right, under the Constitution, to pescibly withdraw from the Union, for no cause whatever, save the caprice of the moment. The right of revolution rests upon the fact, that the the government has broken through its original compact with the people, [disregarding its compromises, and trampling upon their Constitutional rights; and, therefore, forfeited all claim on the loyalty of the people, and released them from all obligation to support and obey it. This right does not regarded as Law in all our courts of justice. that where one party to a contract, break it, it can no longer be enforced against the other party. So that, "whenever any form of government becomes destructive of? the ends for which it was originally established, it is the right of the people to alter or sholish it, and to institute a new government, laying its foundations in such principles and organizing its powers in such forms, as to them shall seem most likely to secure their future happiness and safety."

But this is not what is contended for. I is contended that the people have a right to peacably withdraw from the government, not because it has violated sacred rights, or interfered with any of their Constitutional immunities, but merely because they want to Now, for the first time since the foundation of the government, it is urged, that any State in this nation has the legislative nonstitutional right to peaceably secode from the Union, without asking to consult, or consulting the wishes of any of the other calling it a constitutional right, by saying the aggregate: that the constitution says nothing about it. But it is absolutely certain that if it is a right belonging to the States at all, it must be a constitutional right. For who ever heard of the States having unconstitutional doctrine thus:

Our Colon never had and never was designed to have any stronger bond than that of the interest of the parties belooging to it. It was helieved, it is yet believed, that the highest good of each and every State is subserved by the Luion, of which swil-interest is the bond; but if any State it, usingess or passion determines of the while the determines and to accordingly.

Nearly thint; "State Rights)" with a ven grant of the parties without consists of association for certain apositised purposes, the benefits of which are to be mutual and reciprocal, may be legally and rightfully broken up, and its object defeated by any one of the parties without constitute the rest? This is a large gain.

A Year of Ettracediary Weather.

From Gardener's (English) Circuids.

We are now completing a year of very extendingly weather—he warmed and the oldest October almost ever known—a containty to the unemproted doorline of the Democrat, for the Tribuate in an issue subsequent to that quoted by the Democrat, declares that, "rightly appealing for State line a right, to saccede from the Union." And certainly the old fory opinion was that a mutual consent. For example, suppose that answeral men exter into a joint and several men exter into a joint and several conjugat to perform a signific process of the parties with the freshed declaiments and the propose that answeral men exter into a joint and several conjugat to perform a signific process of the contract, and an almost every wet, and rain almost, every wet, inclement a contained that one of those men may rightifully proceed by the process of the perform a spiting piece of voriging and many of the process of the perform a contained that one of the seems may rightifully proceed the process of the perform a spiting piece of voriging and many of the process of the perform a contained that one of the seems may rightifully proceed that answeral men extern into the divided equally among them. Will it be contained, and refuse to perform the process were many the second to the process of the performance of the performa Verily this is "State Rights" with a ven. 680 Republican majority by the official canfally break faith with his companions, negrection of our green crops all over England. They have spoiled the hay crop nearly countract, and thereby defeat its altimate of inferior quality and diminished quantity of our position making of our political machinery depends. This interest of its constitutional are fine to position for a moment. And yet, have destroyed to a great extent in England our hope and our potatoes. They have destroyed to a great extent in England our hope and our potatoes. They have alterly destroyed many of our political machinery depends. This of inferior quality and diminished quantity of our political machinery depends. This of inferior quality and diminished quantity of our political machinery depends. This of inferior quality and diminished quantity of our political machinery depends. This our polit language of the Frees Democrat, "has no other bond then their of the interest of the parties belonging to it." But the moment that Union has been consummated, and comented by mutual agreement, that moment the inby mutual agreement, that moment the in-tareat becomes mutual and reciprocal, and no one of the parties can be discharged of his obligations without the consent of the rest. This is a clear and indisputable prinrest. This is a clear and indisputable principle of 1 oth ethics and law. No cane man will deny it. Several days ago the Albany Evening Journal copied and contradicted the Union's silly story. Novertheless, the News gravely reproduces, and desires its readers to credit the tale. Its absurdity is palpable on its face. It cannot impose even upon the readers of the News.

THE CONFESSION.

There's somewhat on my breast, father,
There's somewhat on my breast!
The live-long day I sigh, father,
At night I cannot rest,
I cannot take my rest, father,
Though I would fain do so,
A weary weight oppressed me—
The weary weight of woe!

Tis not the look of gold, father,
Nor lack of wordly goar;
My lands are broad and fair to see,
My friends are kind and dear;
My kin are load and true, father,
They mourn to see my grief,
Hot oh! 'vis not a kineman's hand
Can give my heart relief! 'Tis not that Janet's false, father, 'Tis not that she's unkind;

Though busy flatterers awarm around,
I know her constant wind,
I'll not her coldness, (ather,
I'llst child my inboring breast— I's that confounded occumber I've ale and can't digest,

The Georges.

Thackeray thus describes the Georges, THE GRORGES .- As the statues of these beloved monarchs are to be put in the Parlia-ment palace, we have been favored by a young lady (connected with the court) with copies of the inscriptions which are to be engraved under the images of those stars of GEORGE THE FIRST, STAR OF BRUNSWICK.

He preferred Handvar to England; He preferred two hideous Mistresses To a beautiful and innocent Wite.

But he liked train-oil in his salads,
And gave an enlightened patronage to had oysters:
And he had Walpole as a Minister—
Conslater: in his Preference for every kind of Gerruption. GEORGE II.

n most things I did as my father had done; was false to my wife and I hated my soo. My spending was small and my avarise much: My kingdom was English, and my heart was High-Dutch.

At Dattingen fight I was known no: to blench; buichered the Scotch, and I bearded the French.

I neither had morals, nor magners, nor wit ; I wasn't much missed when I died in a fit, Here set up my statue, and make it complete— With Pitt on his kneed at my dirty old feet. GEORGIUS ULTIMUS. He left an trample for age and for youth To avoid.

He never acted well by Man or Woman.
And was as false to bis Mistress as to his Wife.
He deserted his Friends and his Friendicie;
He was so ignorant that he could scarcely Spell;
But he had some Skill in cutting out Coats,
And ao undenlable Tassu for Cookery.
He bulk the Palaces of Brighton and of Buckingham;
And for these qualities and Proofs of Genius
An admiring Aristocracy
Coristened him the "First Centienses in Europe."
Arlends respect the King whose Statue is here,
And the generous Aristocracy who admired him.
